ATLANTIC WATER TECHNOLOGY LTD

PRODUCT INFORMATION

<u>A-191</u>

GENERAL DESCRIPTION	A-191 is a specially	y selected blend of surface active agents.	
USES	A-191 is a produc boilers and evapora	et designed to prevent foam formation and carry-over in ators.	
COMPATIBILITY	A-191 is compatible with all metals used in boilers and evaporators and associated plant, and with other <i>Atlantic Water Technology</i> boiler and evaporator treatments at in-use concentrations.		
APPLICATION DATA	The concentration of A-191 and the frequency of application will be determined by the water quality and operating conditions.		
	Dosage levels of 6 –8 ppm are usually sufficiently effective.		
	When continuous or frequent/intermittent dosing is required, it is recommended that A-191 should be diluted 2 times with clean cold water for convenient application. The product when diluted forms an opaque emulsion.		
TECHNICAL DATA	Appearance	: Very light crown liquid	
	Specific Gravity	: 1.0	
	рН	: 7.2	
	Flash point	: Non-flammable	
	Packaging	: 25 and 200 litre containers	
	Transportation	: non-hazardous
